Company Profile

- We are specialized in production of various castings for grey iron, ductile iron, castings like manhole cover and gratings etc., with production capacity of 30000 ton per year.
- Our products relate to municipal construction vehicle, machinery, railroad, agriculture, and other industries, which have been marketing into EU, South-East Asia, Middle East and Africa.
- we are BSI and Lloyd's certified company with ISO9001 and ISO1004.

Our Capability

1. Material:

1. grey iron
2. ductile iron as per DIN or ASTM

2. Production process:

1. Hand moulding

2. Automatic moulding lines:

a. One Japan SINTO FBO III molding line:

Box size 610*508* 200mm, capacity 200 boxes/hour, weight ranged from 1kgs to 25kgs

b. Three DISA vertical automatic molding lines:

Z416B, Box size 650*530* 230mm , capacity 250boxes/hr, weight ranged from 1kgs to 20kgs/pcs

Z418F, Box size 800*750*350mm, capacity 300boxes/hr, weight range from 1kgs to 40kgs

c. One 1000x1000mm horizontal automatic moulding line.

3. Main products:

- a. Manhole covers as per EN124
- b. Drainage channel gratings as per EN1433.
- c. Auto parts as per TS16949

4. Production Capacity:

30000 ton per year.
